

Home Learning Project

Our value at school this half-term is "Responsibility" – to help our Reception children understand this concept we would like them to create a Dino Baby.

Their school based project will involve looking after their Dino Baby for a whole school day!

What a 'Responsibility' for our youngest children to take on.

The photo below shows an example of a Dino Baby.

You will need:

- a balloon (do not inflate too much as it will burst easier)!
- filling for the balloon – rice, flour, salt etc
- Card
- Scissors
- Coloured Pens
- Paint
- Decorations

(Please ensure that you do not use any EGG or MILK based products due to allergies within the unit)
